BAM! AN EXTREME LEVEL OF BITTERNESS.

The bitterer, the better, right? Warrior is a fairly young high alpha hop from Yakima Chief Ranches. The mild aromatic quality of Warrior is piney, with notes of citrus and pineapple, and it can deliver a right-sized punch of bitterness without the rough edges. This propriety variety is characterized by high levels of alpha to create new and exciting extreme bitter beer styles, like the double IPA. Roy Farms is unearthing the potential of Warrior year after year to provide the consistency you want. You can be confident you're purchasing the highest-quality Warrior hops directly from Roy Farms with our unwavering commitment to sustainable farming and growing practices, as well as the 113 harvests under our belt.

THE SCIENCE BEHIND THE CRAFT.

BREWING VALUES

ALPHA ACIDS	14.5 % - 16.5 %
BETA ACIDS	4.3 % - 5.3 %
TOTAL OILS	1.3 - 1.7 ml/100g

TOTAL OIL COMPOSITION

MYRCENE	40 % - 50 % of total oil
HUMULENE	15 % - 19 % of total oil
CARYOPHYLLENE	9 % - 11 % of total oil
FARNESENE	< 1 % of total oil

Alpha acids are determined by conductometric titration (EBC 7.4) in Europe;
by spectrophotometric (ASBC Hops-6) in the USA.
