A BARRAGE OF FLAVORS. BOMBS AWAY!

After the release of Citra in 2008, John I. Haas and Select Botanicals Group joint venture, the Hop Breeding Company, doubled down on their momentum and released another hit with Mosaic in 2012. This popular variety give brewers complex and broad flavors to experiment with in a wide variety of beer styles. Its complex profile is backed by a clean bittering — another unique and differentiating characteristic of Mosaic. You can be confident you're purchasing the highest-quality Mosaic hops directly from Roy Farms with our unwavering commitment to sustainable farming and growing practices, as well as the 113 harvests under our belt.
